

- **HVACRedu.net is the most comprehensive HVAC/R technician training program in the world!**
- HVACRedu.net has trained and supported Hundreds of Thousands of HVACR technicians across the globe.
- Our scope of training spans from entry-level to advanced HVAC/R technologies with a **catalog of 2300 Hours of online/on-demand programs**. And as the technology advances, we are constantly creating more curriculum to stay in step with the industry.
- Our learners have a pass rate of 95%+ on industry certification exams. **We track that performance!**
- **All live faculty are CMHE (Certified Master HVACR Educators) with decades of experience as technicians and HVACR educators**

Our learners are supported by two primary groups:

- Live Faculty supports learners' technical understanding. They are available 40 hours a week from 11AM to 7PM Pacific time Monday through Friday - Available via toll free phone or video chat or email anytime
- Student Services takes care of any student administrative issues - available 40 hours a week Monday through Friday.
- **Our courses include:**
 - Video and Simulations
 - HVAC/R Terminology exercises
 - in-line quizzes included in the module presentations
 - Gamification
 - eBooks for additional study included in the courses
 - Textbooks, Print or eBooks, provided to program students for supplemental study.
 - Downloadable handouts relevant to the topic at hand
 - A final exam for every 3 hour module

We believe in assessment - without assessment it is unknown if the student is actually understanding the content

- **Employers are provided** with a Group Manager account at no cost to monitor the performance and progress of their technicians. This also allows them to view the courses that their technicians are enrolled in.
- All of our content is NATE recognized for CEH's (*Continuing Education Hours*)
- For the past 12 Years we have been an accredited program by HVAC Excellence, the only agency that accredits the HVACR F2F programs offered by Community Colleges, Private for-profit Tech Schools, Non-Profit schools, and Government Agencies. HVACRedu.net is one of the only two programs that was awarded accreditation with commendation. (The other was the US Air Force HVAC/R training school)
- Employers view our program as a great investment, 80%+ of our learners are enrolled and paid for by their employers
- We are approved as related training by the US Dept. of Labor, Office of Apprenticeship
- We currently support apprenticeship programs in 24 States
- We can and do work with employers to customize apprenticeship programs to fit their primary scope of work
- **We can and do "white-label" employer programs with their own logo to promote their training as being provided to their employees**
- **Our bottom line....After 26 Years of going at it, HVACRedu.net is well practiced and highly experienced in upscaling the HVAC/R technical workforce. That's why we are Number One in the Industry.**

Our program has been lauded by industry leaders as "Rock Solid"! Others have described it as ***"a mile wide and a mile deep"***. We are totally focused on providing our students in-depth and comprehensive training beginning with the very important foundation of fundamental concepts and then building up across a large scope of system types. Technicians at any level can enter the program and advance their career from where they are to where they want to be.
